

Office 365 Exchange Online Migration Consulting

Integration and training services to help you migrate affordably and quickly to Office 365 Exchange Online

Office 365
Exchange Online

Exchange Online is Microsoft's cloud-hosted email service that can significantly reduce capital outlay and management hassle. But the process of moving to Exchange Online from an onsite Exchange deployment can be challenging for small businesses without advanced in-house IT skills.

Progent's Microsoft-certified consultants can help you carry out a smooth and affordable migration to Exchange Online from your current email environment, provide training for your management and end users, and deliver as-needed consulting and troubleshooting to keep your Exchange Online system available and productive.

Progent has extensive experience setting up cloud-only or hybrid cloud/on-premises Exchange Online solutions, configuring mail flow, defining and validating security strategies, providing disaster recovery planning services, streamlining Exchange management, integrating Exchange Online with Office 365 and 3rd-party apps, supporting smartphones and other mobile devices, and configuring firewalls, routers, switches and VPN connections for safe and convenient access to cloud and on-premises resources.

Examples of Progent's Office 365 Exchange Online Migration Services

Progent has experience providing a broad range of Exchange Online migration services including:

- Design, test and troubleshoot mailbox migration; create scripts for copying data
- Clean folders prior to exporting into Office 365
- Change/Add DNS records
- Assign licenses and create accounts/mailboxes in Office 365
- Export mailboxes to PSTs
- Import PSTs into Office 365 mailboxes
- Perform manual mailbox migrations when necessary
- Move Gmail accounts and public folders to Office 365
- Add accounts to iOS, Android and devices
- Set up Exchange Online Archiving
- Design and test mail flow solutions
- Troubleshoot AD Connect authentication issues
- Configure firewalls and proxy servers

Online Consulting Experts

Progent specializes in delivering advanced consulting solutions online and Progent's Microsoft-certified experts have provided cost-effective remote solutions to companies in every state in the U.S. Progent's clients include large enterprises, ISPs, local and state governments, small and mid-size businesses, and home offices. Remote support saves travel costs, resolves problems faster than onsite service, and streamlines the coordination of large project teams. Progent also offers onsite support in major metro areas throughout the U.S.
